Ultrasonic Flow Meter for Fuel Gas (External Power Supply 100 VAC Model Type)

Alarm output Nch open drain output 1 channel

Accumulated value upper limit alarm and flow upper or lower limit alarm (either one is selected by button operation)

Accumulated value upper limit alarm

When the accumulated flow volume for 1 h becomes higher than the set accumulated flow volume upper limit value, an alarm signal is output.

(The accumulated flow volume upper limit value can be set by communication.)

*The 1 h measurement is started when the power supply is turned on.

Flow upper and lower limit alarm output

When the instantaneous flow becomes higher or lower than the set flow, an alarm signal is output. (The alarm output upper and lower limit flow and alarm judgment value hysteresis width can be set by button operation.)

Current output Output method : 4 - 20 mA Discharge method

Output accuracy : ±0.1 mA (flow measurement accuracy, temperature measurement accuracy and pressure measurement accuracy are excluded) External load : 400 Ω or less

("Instantaneous flow", "Pressure" and "Temperature" can be switched by a button operation and communication.)

When instantaneous flow is selected

Zero output current	: 4.0 mA (reverse flow to low flow cutoff)
Output current lower limit	: 4.0 mA (clip at 4.0 mA)
Output current upper limit	: 22.0 mA (clip at 22.0 mA)

Working fluid temperature	-10 to +60°C
Working pressure	0 to 100 kPa (gauge pressure)
Working ambient temperature	-10 to +60°C 90%RH or less (there must be no condensation)
Storage ambient temperature	-20 to +70°C 90%RH or less (there must be no condensation)
Power supply	100 VAC (85 to 115 VAC, 50/60 Hz) Power consumption: 10 W or less
Protection structure	IP 64 (JIS C0920: dust-proof, splash-proof type) which can be installed outdoors
Flow direction	Free in upward, downward, left to right, and right to left (direction indicated by arrow is forward flow)
Installation position	Horizontal or vertical (cannot be installed with the position that the display portion faces downward or the cable introduction portion faces
Pressure drop	upward) 500 Pa or less (air, standard atmospheric pressure, at maximum flow)
Mass	Model UX40 UX50
	Mass 4.7 kg 6.3 kg
Material	 Measurement portion:Engineering plastic (PPS etc.) Outer casing:Stainless alloy Sensor rubber : FVMQ (Fluoro silicone rubber) Display potion casing :Aluminum alloy *O symbol indicates the gas contacting parts.
Standard working period	10 years (at ambient temperature of 20°C and ambient humidity of 65%RH) *10 years is not the warranty period.
Accessories	M4 Hexagonal wrench, sunshade cover(Optional Accessories)
Others	RoHS Directive compliant

2. Precautions in handling

- 2-1. Installation environment
 - (1) Although the high weather-proof electronic display is adopted, in case of installation at a place subjected to direct sunlight, provide a sunshade.
 - (2) Do not install the flow meter at a place with much electromagnetic noise, in corrosive atmosphere, or with high humidity liable to cause dew condensation
 - (3) This product is designed for outdoor installation, but avoid areas where there is a risk of water submergence and water always splashes.
 - (4) The GND (signal ground) is connected to the casing. Take the following measures, as necessary.
 - · For DC24V type, use an insulation type power supply.
 - Install a pulse isolator to isolate signals between the flow meter and a receiver.
 - Use an insulating bolt, insulating washer, etc., to isolate the casing and pipes.
 - The meters do not conform to ATEX (explosion-proof) directive (2014/34/EU). (5)

2-2. Piping conditions

- (1) In case propane or butane is the fluid to be flown, make sure to use the flow meter under conditions that the fluid does not become oil mist state due to re-liquefaction, etc.
- (2) Even though the meter is installed indoor, it cannot be installed with the position that the display portion faces downward or the cable introduction portion faces upward.
- (3) When installing it at the upstream or downstream of the governor, install it 10D or more away from the governor.
